How we work

WHO WE ARE

Senior practitioners, not a pyramid.

Techaris Consulting is a client-centric firm built on trust and designed to deliver sustainable results. The people who scope your engagement are the people who do the work: enterprise architects, SAP solution leads, EHS and compliance specialists, and certified program managers who have spent their careers inside the industries they advise.

Our team has delivered for global energy, semiconductor, pharmaceutical, consumer and technology companies and for large public agencies, and has worked alongside Big Four and top-tier strategy firms. Clients get that depth of experience at a fraction of big-firm cost.

Team credentials

- PhDs (AI, Business, MIS, Finance)
- PgMP
- PMP
- TOGAF
- ITIL
- SAP certified

Headquarters

6363 Auburn Blvd, Citrus Heights, CA 95621

WHAT WE DO

Four integrated consulting practices.

01

Advisory Services

Strategy-driven, tactically operationalized, process-centric and technology-enabled advice that delivers reliable, pragmatic results.

02

Strategy Consulting

Organizational and IT strategies that are practical, effective and value-driven, from formulation through execution.

03

Process Consulting

Process improvement along the value chain, with digitally transformed business processes that raise efficiency and effectiveness.

04

Technology Consulting

Business-driven, scalable technology solutions, from application development to cloud, AI and IoT.

Specialized offerings

- Digital Transformation
- Regulatory & Compliance
- IT Governance
- Risk Management
- Corporate & IT Strategy
- Strategic Planning
- Functional & Business Strategy
- Organizational Effectiveness

CORE CAPABILITIES

Deep expertise where transformation succeeds or stalls.

Enterprise & solution architecture

TOGAF-based architecture, roadmaps and business cases that connect strategy to the systems that deliver it.

SAP S/4HANA delivery

Finance (FI/CO), order-to-cash, procure-to-pay, warehousing (EWM), transportation (TM) and EHS, from design through cutover.

EHS & regulatory compliance

Incident management, industrial hygiene, hazardous substances, safety data sheets and environmental reporting.

Program & PMO leadership

PgMP/PMP-certified governance, vendor oversight and independent assessment for multi-year, multi-vendor programs.

Data & integration

SAP CPI, MuleSoft and Kafka integration; Snowflake, Informatica and Collibra data platforms; large-scale data migration.

AI & cloud

Practical generative AI on Azure OpenAI and AWS Bedrock, built on governed data with people in the loop.

INDUSTRIES WE SERVE

Domain depth across eight industries.

Automotive & Mobility

Supply chain, EHS and ERP modernization for automakers, suppliers and transit agencies.

Finance

SAP finance, faster closes and audit-ready controls across record-to-report and order-to-cash.

Oil & Gas

Process safety, industrial hygiene and environmental compliance on integrated SAP EHS systems.

Manufacturing & Retail

High-volume order-to-cash, warehousing, transportation and integration on SAP S/4HANA.

Healthcare

HIPAA-aware architecture, integration and program leadership for clinical and payer platforms.

Pharma

Hazardous substance, SDS and EHS management in well-governed enterprise systems.

Hi-Tech

Chemical management, product compliance and enterprise architecture for semiconductor and high tech.

Public Sector

Modernization roadmaps, statewide ERP architecture and PMO for government agencies.

TRACK RECORD

Results our team has delivered.

8 → 4 days

Monthly financial close cut in half through SAP finance redesign.

$80B+

Annual order volume supported by order-to-cash solutions we designed.

$300M+

Rebates processed through rebate and revenue programs at scale.

150+

Reusable integrations built on SAP CPI, MuleSoft and Kafka.

40M+

Records migrated at 99.9% accuracy into new enterprise platforms.

$25M

System modernization roadmap delivered for a public agency.

CLIENT & PROJECT EXPERIENCE

Trusted by leaders in regulated, high-stakes industries.

Pharmaceutical

AstraZeneca | **Pfizer** | **Merck**

Hazardous substances, safety data sheets, dangerous-goods classification, industrial hygiene and audit-ready compliance data.

Across our team's engagements

- Global energy company: a decade of SAP EH&S leadership
- Leading semiconductor and clean-energy manufacturers: EHS, chemical compliance and enterprise architecture
- Global consumer and retail brands: high-volume supply-chain architecture
- State and regional agencies: finance, pensions and investments, agriculture and transit
- Engagements alongside Big Four and top-tier strategy firms

PRACTICAL AI

AI that your auditors, regulators and people can trust.

Our approach

- Start with a clear business case, not a tool
- Build on clean, governed data
- Keep people in the loop for decisions that matter
- Design in security, privacy and audit trails
- Deploy on enterprise platforms such as Azure OpenAI and AWS Bedrock

Where it pays back

Finance

Automated reconciliations, anomaly detection and explainable forecasting.

EHS & compliance

SDS and chemical-approval review, incident trend analysis, regulatory monitoring.

Supply chain

Demand sensing, order-exception handling and tariff scenario planning.

Healthcare & public sector

Document intake, prior-authorization support and case triage with human review.

HOW WE WORK

We approach every client's business as if it were our own.

We put ourselves in our clients' shoes, align our behavior with their objectives, and collaborate to unlock the full potential of their business. We understand your priorities and implement solutions that are practical and add value to your bottom line.

Trusted. Proven. Cost-effective.

- Senior people on every engagement, from scoping through go-live
- Independent advice focused on what fits your organization
- Measurable outcomes agreed up front
- Knowledge transfer, so your team owns the result
- Responsible AI: governed data, human oversight and audit trails
